

## PUBLIC WORKS COMMITTEE MEETING MINUTES

February 9, 2011

Opened 6:30pm

Present: Jeff Gately , Gary Walkington, Terry Grom.

Business

Approval of January 2011 meeting minutes

The committee feels that Dave Schultz Snowplowing did a fantastic job with the blizzard snow removal. Cleanup and widening are still in progress. Hoping to be completed within the next week.

I have received the Budget back to make more cuts. Don't know how much more can be shaved but I will see what I can do.

Terry Grom has stated that Maxcor says that the reason that the paint is blistering on the tower is due to the fact that the old paint underneath is causing the problem. The entire tower was not sandblasted, nor was it required to be in the specs that were prepared by a previous engineering firm. Will talk to Jim Rock about this.

Adjourned 7:30pm

Respectfully Submitted

Jeff Gately
