

PUBLIC WORKS COMMITTEE MEETING MINUTES

June 8, 2011

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kreise and Terry Grom.

Business

Approval of May 2011 meeting minutes

Terry Grom reported that the water system has been operating without incident as usual. With the summer Months approaching it would be a good time to get the word out about water conservation. We will have the watering restrictions posted on the website and in an upcoming newsletter. The Police will be notified if violators need to be fined.

Trustee Kries asked if the Village pays for false alarms that occur at the Village Hall or any of our alarmed properties. We have not in the past but will confirm with the Police Department to see if this is the case.

The committee has been moving forward in getting the EPA loan documents in order, as well as the project scope for the water main extension along rte 120 and rte 134. Greg Gruen should have everything ready to go in the next Month or so.

Adjourned 7:30pm

Respectfully Submitted

Jeff Gately
