

## PUBLIC WORKS COMMITTEE MEETING MINUTES

September 14, 2011

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom.

Approval of August meeting minutes.

Business.

Terry Grom reported that the broken fore hydrant should be repaired by the end of the week. The new photocell will also be replaced on the water tower as well.

Trustee Kriese has reviewed the Wind Energy ordinance and the committee is ready to make recommendations to the Board.

The water tower is in desperate need for repainting. We will be working on a bid package over the winter months to get this project done next spring.

We have received 2 quotes to install a fence around the fuel tanks at Public Works. Waiting for a third.

Adjourned 8:10pm

Respectfully Submitted

Jeff Gately
