

## **PUBLIC SAFETY COMMITTEE REPORT**

**DATE: October 23, 2012**

**TIME OPENED: 6:15 pm**

**PRESENT: Trustee Kriese, Trustee Daley**

### **Old Business:**

Mayor Linda Soto informed Trustee Kriese of the finding on the safety issue on the exit on Big Horn Dr at Hainesville Rd. Most of the landscaping involved was on private property. IDOT would not rule on this because of that fact. Manhard and Tree Cut Landscape surveyed the property and came up with a plan to remove one bush and trim back the other trees and shrubs. The residents called Mayor Soto to question what was going on with their property. The Mayor explained the situation and the residents agreed that this was causing a problem. They asked that before anything was cut down they would like to talk with the landscaper of what will be taken down. The Mayor agreed that will happen and she did offer a blue spruce tree to replace the shrub.

Update is that Tree Cut Landscaping and Manhard came up with a quote and Mayor Soto approved it. Tree Cut will contact the residents on when the work will begin and to what extent will the trimming be.

Mike Benko and Trustee Kriese have discussed upgrading the website to include links to some helpful safety websites. The links will be given to Kathy Metzler for the upgrade.

### **New Business:**

#### **Suggestion on Safety Articles**

**Deep Fryers is one subject and Christmas tree safety was another suggestion.**

**TIME CLOSED: 6:45 pm**

APPROVED  
W Kriese
