

PUBLIC WORKS COMMITTEE MEETING MINUTES

January 12, 2012

Meeting opened at 6:30 pm

Present were, Jeff Gately, Gary Walkington, Walter Kreise, Terry Grom and David Schultz.

Business:

Approval of November and December minutes.

The well pit at the old Village Hall site has had on wall removed per the County inspector. I will send pictures to Manhard. This should be the end of that ordeal.

Manhard is searching for the CMON report that the Village has done in 2008. It is possible that RHMG still has it. We will follow up.

We are curious to see if the force main that runs through Round Lake Park is going to be affected by the new sidewalk installation.

Walter Kreise asked if the Public Works Dept. has any kind of safety plan in place. I explained that we do have safety meetings that are supplied by our insurance company. I also do a yearly training on how to operate equipment.

We are still looking into the current Native Restoration contract.

Adjourned 7:45pm

Respectfully Submitted

Jeff Gately
