

PUBLIC WORKS COMMITTEE MEETING MINUTES

February 8, 2012

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom.

Approval of January meeting minutes.

Business.

Terry Grom reported that the water system is operating well. We are starting to get the water main extension on rte 120 going. We are looking to start that project in May.

We are happy with the results we are seeing from pre treating the streets before a snow event. Our salt usage is down. We are looking to increase the pre treating to include all streets for the next winter season.

Adjourned 7:30pm

Respectfully Submitted

Jeff Gately
