General Notes and meeting highlights:  
Meeting called to order By Mike Benko

- 1) Make sure in general we have been trying to get something published in the newsletter monthly to educate and put the message out to the public and to help educate the community. Mike and Wally are going to switch out writing articles and to elicit response from the elderly and handicapped  
to get on lists in the event of any disaster or call for service.
- 2) Mike would like to do a recognition of the service of the members with the EMA
- 3) Mike wants to do something for the town hall meeting and is inquiring and asking for comments from the members for what to and how to display at the town hall meeting.
- 4) Mike will use the ID theft meeting tomorrow as a barometer to gauge what type of what we (EMA) need for a tabletop at the town hall meeting
- 5) now into the training portion , Mike displayed a wakawaka lamp, solar powered self-contained light with 4 different settings , 4 hour run time with up to 80 hours on the low setting and SOS signal supplier is 40 bucks shipped at amazon
- 6) Coleman 7.5 watt solar panel with a USB port weather proof not water proof used for charging cellphones , i-pods and similar devices available at amazon
- 7) Last new product lifestraw Time magazine invention of the year is the lifestraw which allows you to filter water without bleach and chlorine web site [www.buylifestraw.com.also](http://www.buylifestraw.com.also) Amazon
- 8) meeting adjourned at 2000 hrs.
