

PUBLIC WORKS COMMITTEE MEETING MINUTES

February 13, 2013

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom.

Approval of January meeting minutes.

Business.

Well one is completed and ready to go online. John Rucker should have it up and running tomorrow.

The Mayor and I are working on specs for the Village entrances. Once we have them completed, we will have a mandatory site visit meeting with landscaping vendors to get their input and pricing to install and maintain all Village entrances.

We have applied for a grant to deal with the Emerald Ash Borer that has infested the Village, as well as most of northern Illinois. We have come up with a plan to deal with this. If we do not receive the grant, we still need to move forward. We may cut back on the program to spread it over another year. We will see what the budget will allow us to do.

Adjourned 7:35pm

Respectfully Submitted

Jeff Gately
