

## PUBLIC WORKS COMMITTEE MEETING MINUTES

May 8, 2013

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom.

Approval of April meeting minutes.

Business.

We are a few days away for the water tower project to begin. The portable tanks are to be delivered next week. I will have Chris Electric hook up the pressure switches to operate the system when Jetco is ready to take the tower off line.

I have met with the Landscaping company that is responsible for the upkeep of our Village entrances. He will be providing us a list of acceptable flowers that will give us color and tolerate the harsh median conditions.

Terry Grom reported that the water system operated without incident last month. They will be monitoring the system throughout the repainting process.

Adjourned 7:45pm

Respectfully Submitted

Jeff Gately
