

## PUBLIC WORKS COMMITTEE MEETING MINUTES

October 9, 2013

Meeting opened at 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom

Business:

Approval of August and September committee meeting minutes.

We have received the crosswalk beacons that are to be installed at the crosswalk on Hainesville rd. We are hoping to have them installed by the end of this week.

The pumps at well one have been rebuilt. They are at 100%. We are still looking at the failsafe operation of the pumps. We are going install a "lockout" on the pump circuit so if the well fails for whatever reason, the pumps will not continue to run and dry up the reservoir, thus ruining the pumps. Chris Electric will have a plan of attack for us on this very shortly.

We have just about completed tree stump removal throughout the Village for the emerald ash borer project.

We have completed sidewalk repairs throughout the Village. Including the required ADA mat installation in the Misty Hill Subdivision.

I will be seeking quotes for snow blowers to handle the Village owned open area sidewalks for this upcoming winter season.

Respectfully Submitted

Jeff Gately
