

PUBLIC WORKS COMMITTEE MEETING MINUTES

September 10, 2014

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Terry Grom and Walter Kriese

Approval of August minutes

Business.

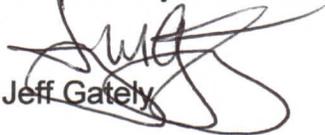

Terry Grom reported that the flow meter is shot. It will have to be replaced. He is seeking quotes for a new one. We are looking at a 10 to 15 thousand dollar expenditure. Terry will update with Jeff when we have a firm price.

We had our snow plow bid opening on August 29th. The only bid that was returned was from Dave Schultz Snowplowing. The rates for the next two winter seasons are remaining the same as they were for the last contract. I really believe that we need to challenge the attorney about having to go through the whole bid process, waste time and money, and yet we have had the same plowing contractor for the last 25 years. Anyway, my rant is over.

Trees are coming down at a good pace, should be starting stump removal in a week.

Adjourned 8:00pm

Respectfully Submitted

Jeff Gately
