

## **PUBLIC SAFETY COMMITTEE REPORT**

**DATE: March 25, 2014**

**TIME OPENED: 6:00 pm**

**PRESENT: Trustees Kriese and Daley**

Approval of the minutes from February's meeting.

Discussion was held on a video given to committee by Grayslake Police Department for a future workshop on drunken driving. Committee felt there probably won't be enough participation warranting going ahead with this, mostly because this is presented to high school students annually.

Received thirteen replies from the clerks with varied inputs, 25% of the municipalities that responded have no EMA agency.

Trustee Kriese stopped by the Lake County EMA Department and talked with Kent McKenzie and Michael Jackson on what happens on a county level when a disaster happens. They proceeded with an outline of some of the things that happened back in 2010 with the wind storm that came through. They also informed Trustee Kriese of some new software which is cloud based that they are proofing out. This will help municipalities in Lake County link together to update data and monitor data when an impending threat is issued. It will include maps and online forms to access damage, etc. More information will be given at a later date.

**TIME CLOSED: 6:25 pm**
