

PUBLIC WORKS COMMITTEE MEETING MINUTES

April 15, 2014

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Walter Kriese and Terry Grom.

Approval of March meeting minutes.

Business.

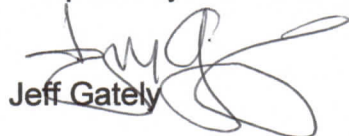

The department is seeking a community block grant to help fund the cranberry lake street resurfacing program. We could be eligible to receive up to \$85000.00 in funding. Greg Gruen with Manhard consulting is working on this for us.

Our present landscaping contractor is not performing the duties that are clearly stated in the scope of work relative to planting flowers. They want an extra \$5000.00 to plant flowers in the areas that they did last year. They are claiming that no flowers were planted at the Village entrances last year. I am looking into hiring another vendor to take over.

Terry Grom reported that the water and sewer has operated without fail this month. Hydrant flushing will take place in May.

Adjourned 8:00pm

Respectfully Submitted

Jeff Gately
