

PUBLIC WORKS COMMITTEE MEETING MINUTES

August 13, 2014

Opened 6:30pm

Present: Jeff Gately, Gary Walkington, Terry Grom and Walter Kriese

Approval of June and July 2014 Minutes

Business.

Terry Grom reported that we have an issue with the flow meter at the Cranberry Lake lift station. When we had the force main issue, the sewerage flooded the well that the meter is located. We are hoping that we can have the unit reprogrammed as opposed to replaced. Terry will follow up with metropolitan.

The Village has started removing dead ash trees. We are hoping to have all tress down within a few weeks, then go back and remove the stumps.

Bid opening is approaching for snow plowing season 2015- 2016 and 2016- 2017.

Adjourned 6:35pm

Respectfully Submitted

Jeff Gately
