

## **PUBLIC SAFETY COMMITTEE REPORT**

**DATE: January 27, 2015**

**TIME OPENED: 6:15 pm**

**PRESENT: Trustees Kriese, Daley, Hein and resident George Duberstein**

We had a discussion on future construction of Washington St. This will affect access to the bike path and pedestrian's access to the train station from the village. Alternative routes were discussed but no access is possible without crossing private property.

A discussion on the Mayor's meeting with LCDOT and how more signage on Tall Oak pedestrian crossing could make that crossing safer.

George Duberstein asked whether contracting to Grayslake Police has saved the village on policing cost. Trustee Daley responded that having our own police department would cost the village substantially more than we're currently spending.

**Adjournment: 6:45pm**
