#### INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Village of Hainesville, Illinois

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, budgetary comparison information for the General and Police Protection Funds, and the aggregate remaining fund information of the Village of Hainesville, Illinois (the Village) as of and for the year ended April 30, 2011, which collectively, comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Village of Hainesville as of April 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison information for the General and Police Protection Funds, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The accompanying information consisting of individual fund financial statements and schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Management's Discussion and Analysis and Required Supplementary Information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Supplemental Information listed in the Table of Contents was not audited by us and, accordingly, we do not express an opinion thereon.

Oakbrook, Illinois September 19, 2011

Wolf & Company LLP

## MANAGEMENT'S DISCUSSION AND ANALYSIS

## **April 30, 2011**

The Village of Hainesville's (the "Village") Management's Discussion and Analysis (MD&A) is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Village's financial statements.

## **Financial Highlights**

- The assets of the Village exceeded its liabilities at the close of the most recent fiscal year by \$17,558,698 (net assets). Of this amount, \$3,150,636 (unrestricted net assets) may be used to meet the Village's ongoing obligations to citizens and creditors.
- The Village's total net assets decreased by \$92,457. This includes the systematic and planned consumption of the Village's capital assets that is quantified as depreciation expense. Total depreciation expense for the year was \$327,810.
- As of the close of the current fiscal year, the Village's governmental funds reported combined fund balances of \$2,813,841. Of this amount, \$2,520,433 is available for spending at the Village's discretion (unreserved fund balance).
- At the end of the current fiscal year, the fund balance of the General Corporate Fund was \$2,397,587 or 232% of total General Fund expenditures during the current year.
- The Village's total debt increased by \$611,316 during the current fiscal year. A \$600,000 note was entered into by the Village for a purchase of real property. A tractor was also purchased on a 4 year lease for \$36,224.

## USING THE FINANCIAL SECTION OF THE COMPREHENSIVE ANNUAL REPORT

The financial statements' focus is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden the basis for comparison (year-to-year or government-to-government) and enhance the Village's accountability.

#### **Government-Wide Financial Statements**

The government-wide financial statements (see pages 12 to 14) are designed to emulate the corporate sector in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net Assets (see page 12) is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates the governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see pages 13 and 14) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The Governmental Activities reflect the Village's basic services, including public safety and administration. Property taxes, shared state sales and income taxes, and local utility and franchise taxes finance the majority of these services. The Business-type Activities reflect private sector type operations (Water and Sewer), where the fee for service typically covers all or most of the cost of operation, including depreciation.

#### **Fund Financial Statements**

Traditional users of governmental financial statements will find the fund Financial Statements presentation familiar. The focus is on Major Funds, rather than fund types.

The Governmental Funds (see pages 15 to 20) presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the Budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith.

While the totals of the Proprietary Fund Financial Statements (see pages 21 to 23) is the same as the Business-type column on the Government-Wide Financial Statement, the Governmental Funds Total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected on the page following each statement (see pages 16 and 18). The flow of current financial resources will reflect loan proceeds and interfund transfers as other financing sources as well as capital expenditures and loan principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligation (bonds and others) into the Governmental Activities column (in the Government-wide statements).

### FINANCIAL ANALYSIS OF THE VILLAGE AS A WHOLE

The following table reflects the condensed Statement of Net Assets:

Table 1: Statement of Net Assets April 30, 2011 and 2010 (in thousands)

	Govern	mental	Busine	ss-type			
	Activ	Activities		Activities		Totals	
	2011	2010	2011	2010	2011	2010	
Assets

Capital Assets	2,642.5	2,841.8	12,083.5	11,210.6	14,726.0	14,052.4	
Total Assets	6,110.4	6,161.5	12,827.6	12,321.0	18,938.0	18,482.5	
Liabilities							
Current Liabilities	622.4	687.6	150.2	91.0	772.6	778.6	
Other Liabilities			606.7	52.7	606.7	52.7	
Total Liabilities	622.4	687.6	756.9	143.7	1,379.3	831.3	
Net Assets							
Invested in Capital Assets,							
Net of Debt	2,642.5	2,841.8	11,472.2	11,210.6	14,114.7	14,052.4	
Restricted for Maintenance		•	ĺ	,	,	,	
of Roadways	293.4	258.4			293.4	258.4	
Unrestricted	2,552.1	2,373.7	598.5	966.7	3,150.6	3,340.4	
Total Net Assets	\$ 5,488.0	5,473.9	12,070.7	12,177.3	17,558.7	17,651.2	

For more detailed information, see the Statement of Net Assets (page 12).

The largest portion of the Village's net assets (80.5%) reflects an investment in capital assets (e.g., land, buildings, equipment, improvements and construction in progress), less any debt used to acquire those assets. The Village uses these capital assets to provide service to citizens; consequently, these assets are not available for spending. The second largest portion (17.9%) is unrestricted assets. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining assets (1.6%) are restricted for maintenance of roadways.

## **Normal Impacts**

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation.

<u>Net Results of Activities</u> - which will impact (increase/decrease) current assets and unrestricted net assets.

**Borrowing for Capital Assets** – which will increase current assets and long-term debt.

<u>Spending Borrowed Proceeds on New Capital Assets</u> – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested capital assets and an increase in related net debt, which will not change the invested in capital assets, net of debt.

<u>Spending of Non-borrowed Current Assets on New Capital Assets</u> – which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net assets and increase invested in capital assets, net of debt.

<u>Principal Payment on Debt</u> – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase investment in capital assets, net of debt.

<u>Reduction of Capital Assets through Depreciation</u> – which will reduce capital assets and investment in capital assets, net of debt.

# **Current Year Impacts**

The Village's \$.09 million decrease in combined net assets (which is the Village's bottom line) was the result of the governmental activities net assets increasing by \$.01 million and the business-type activities net assets decreasing by \$.10 million. The General Fund decreased by \$138,749, mainly due to a portion of General Fund Reserves went toward the purchase of the Public Works Building. Police Protection Fund increase was \$298,387, due to the police department being disbanded within the fiscal year while the Police Contract for the remainder of the fiscal year was paid out of the General Fund; the Motor Fuel Tax Fund increase was \$35,017 due to MFT projects completed during the Fiscal Year that were less than the revenue that came in for MFT

The net assets of the Village are generally not restricted. The balance of governmental unrestricted net assets, \$2,520,433, may be used to meet the Village's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Village is able to report positive balances in all categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

## **Changes in Net Assets**

The following chart shows the revenue and expenses of the governmental and business-type activities.

Table 2: Statement of Changes in Net Assets Fiscal Years Ended April 30, 2011 and 2010 (in thousands)

Increase/Decrease in Village Approved Rates – While certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water, wastewater, impact fees, building fees, etc).

There are eight basic impacts on revenues and expenses as reflected below.

## **Normal Impacts**

## **Revenues:**

**Economic Condition** – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

**Increase/Decrease in Village Board Approved Rates** – while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water, wastewater, impact fee, building fees, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) such as, certain recurring revenues (state-shared revenue, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income – Market conditions may cause investment income to fluctuate.

### **Expenses:**

**Introduction of New Programs** – Within the functional expense categories (Public Safety, Public Works, General Government, etc.), individual programs may be added or deleted to meet changing community needs.

**Increase in Authorized Personnel** – Changes in service demand may cause the Village to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the most significant of the Village's operating costs.

**Salary Increases** (annual adjustments/merit) – The ability to attract and retain (employees) resources requires the Village to strive to approach a competitive salary structure in the marketplace.

**Inflation** – While overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and repair parts. Some functions may experience commodity specific increases.

# **Current Year Impacts**

Governmental Activities

## **Revenue:**

For the fiscal year ended April 30, 2011, revenues from the governmental activities totaled \$1,511,042. Property tax revenues are the Village's largest revenue source, coming in at \$625,964 with state income tax of \$266,521 and sales and use tax receipts of \$239,653. Franchise and utility taxes are \$209,594 and \$111,535, respectively.

## **Expenses**:

For the fiscal year ended April 30, 2011, expenses for governmental activities totaled \$1,496,966.

Business-type Activities

## Revenue:

For the fiscal year ended April 30, 2011, revenues from the business-type activities totaled \$1,026,219.

The major revenue source is Charges for Services to operate the Water and Sewer Funds.

## **Expenses**:

For the fiscal year ended April 30, 2011, expenses for business-type activities totaled \$1,132,752, including depreciation and amortization of \$151,647.

The Water and Sewer Funds follow the same strict spending guidelines imposed on the Governmental Funds.

## FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

#### **Governmental Funds**

At April 30, 2011, the governmental funds (as presented on the balance sheet on page 15) reported a combined fund balance of \$2,813,841.

## **General Fund Budgetary Highlights**

The 2011 fiscal year budget, as originally approved by the Village Board, was not amended during the current year. Below is a table that reflects the original and actual revenues and expenditures for the General Fund.

Table 3: General Fund Budgetary Highlights (in thousands)

	Original/Final	
	Budget	Actual
Revenues		
Taxes	\$ 415.6	456.5
Intergovernmental	453.4	496.7
Other	29.8	81.2
Total	898.8	1,034.4
Expenditures		
General Government	508.3	515.8
Public Safety	560.0	516.2
Total	1,068.3	1,032.0
Change in Fund Balance	\$ (169.5)	2.4

The General Fund's actual revenues were over budget by \$135,622 (15.1%) and actual expenditures were \$36,286 (3.4%) less than the budgeted amount. Intergovernmental revenues received were over budget by \$43,361 (9.6%); fees, licenses and permits were over by \$31,574 (135.9%). The primary expenditure budget variance was in General Government contractual services (\$17,251 under budget).

# **Capital Assets**

At the end of Fiscal Year 2011, the Village had a combined total of capital assets of \$14,726.0 million invested in a broad range of capital assets including land, buildings, vehicles, water mains, storm sewers and sanitary sewer lines. (See Table 4 below).

Table 4: Schedule of Capital Assets April 30, 2011 (in thousands)

	Governmental	Business-type	
	Activities	Activities	Total
Land	\$ 99.0	3,998.9	4,097.9

Depreciation Expense	(176.2)	(151.6)	(327.8)
Ending Balance	\$ 2,642.5	12,083.5	14,726.0

See Note 3 for additional information of the Village's capital assets.

## **Debt Outstanding**

The Village of Hainesville had total long-term debt and loans payable of \$555,094 as of April 30, 2011. Long-term debt is comprised of a bank note payable and a capital lease obligation. During the year, \$12,530 of long term debt was paid down, \$636,224 in notes and leases were issued.

The bank loan is payable in 59 regular payments and one irregular payment. Revenues from Cell Tower Franchise Agreements are offsetting the payments. This property is being used as a Public Works Facility and houses Public Works Trucks and Equipment.

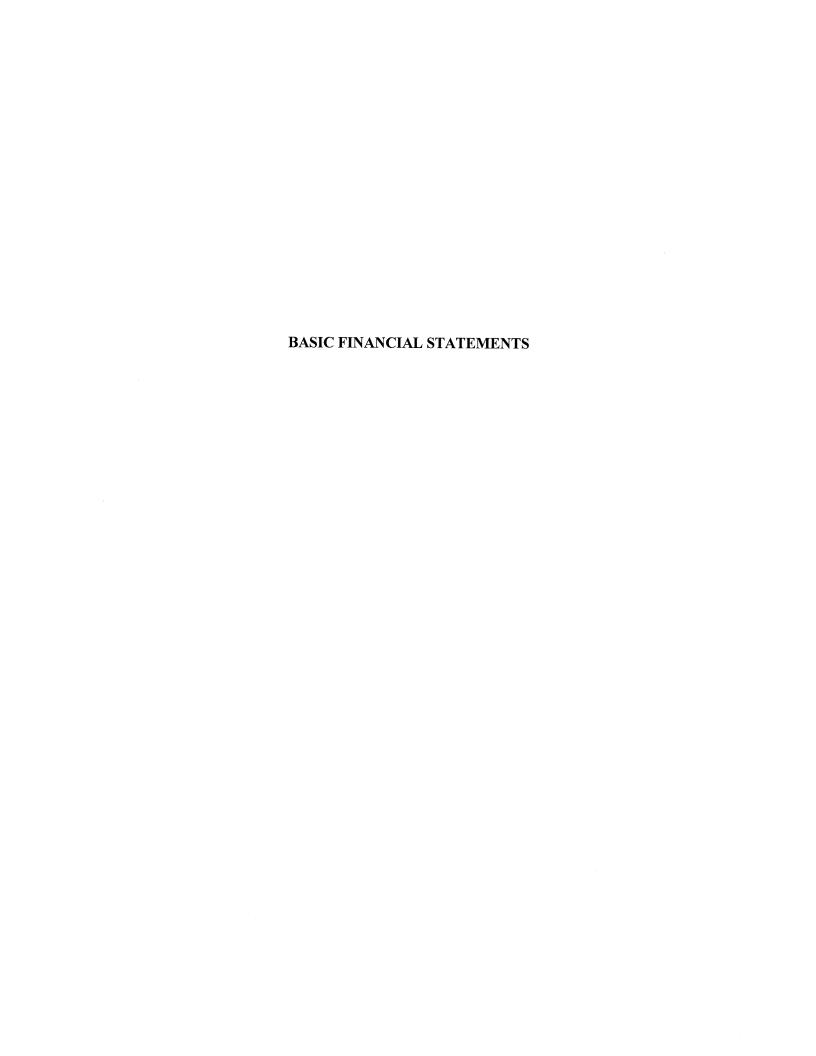

Additional information on the Village's long-term bonded debt can be found in the Note 4 to the basic financial statements.

### **Economic Factors**

Even though economic times are tough the village has maintained a balanced budget and continues to find ways to reduce expenses. During this past fiscal year a new large business and a few small businesses opened up within the village. With these new businesses the village anticipates more revenue for Sales Tax. The economic situation within our State has affected the village's receipt of State Income Taxes. They are currently three (3) months behind. Foreclosures within the village have decreased and some of the foreclosed homes have been purchased. The village is looking forward to the small but steady growth we have seen this past year to continue throughout this next fiscal year.

#### CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Kelly Hensley, Village Treasurer, Village of Hainesville, 100 North Hainesville Road, Hainesville, IL 60030.

Notes to the Financial Statements April 30, 2011

### 1. Summary of Significant Accounting Policies

The Village of Hainesville, Illinois (the Village) was organized in 1847 and operates under a President-Trustee form of government. The Village provides the following services as authorized by its governing board: police, streets and sanitation, water and sewer, public improvements, community development, and general and administrative services.

The Village employed one full-time police chief through July 29, 2010, four full-time officers and, one full-time Police Records Clerk through July 21, 2010. One full-time public works supervisor was employed the entire fiscal year. All other employees are hired on a part-time basis. Police services were contracted to the Village of Grayslake in July 2010.

The accounting and reporting policies of the Village included in the accompanying financial statements conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to state and local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is described below.

#### A. Reporting Entity

The reporting entity includes the governing board and all related organizations for which the Village is financially accountable.

The Village has developed criteria to determine whether outside agencies should be included within its financial reporting entity. The criteria includes, but is not limited to, whether the Village appoints a majority of the organization's Governing Board and is able to control the operation, and whether financial benefits are received, or financial burdens imposed.

The Village has determined that no other outside agency meets the above criteria; therefore, no other agency has been included as a component unit in the Village's financial statements.

## B. Basis of Presentation

The Village's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information. The government-wide focus is more on the sustainability of the Village as an entity and the change in aggregate financial position resulting from activities of the fiscal period.

### Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the Village as a whole. In the government-wide statement of net assets, both the governmental and business-type activities columns are presented on a consolidated basis by column. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The government-wide statement of activities reflects both the direct expenses and net cost of each function of the Village's governmental activities and business-type activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges paid by the recipient for the goods or services offered by the program, grants and contributions that are

Notes to the Financial Statements April 30, 2011

#### 1. Summary of Significant Accounting Policies (Cont.)

#### B. Basis of Presentation (Cont.)

Government-wide Financial Statements (Cont.)

restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the Village, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the Village.

#### Fund Financial Statements

The financial transactions of the Village are recorded in individual funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds maintained is consistent with legal and managerial requirements. Separate statements for each fund category — governmental and proprietary — are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and presented as nonmajor funds. Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

### C. Measurement Focus and Basis of Accounting

## Government-wide Financial Statements

The government-wide financial statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statements of net assets and the operating statements present increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized when earned, if measurable, and expenses are recognized as incurred, regardless of the timing of related cash flows.

The Village has reported three categories of program revenues in the statement of activities: (1) charges for services, (2) program-specific operating grants and contributions, and (3) program-specific capital grants and contributions. Program revenues are derived directly from the program itself or from external sources, such as the State of Illinois; they reduce the net cost of each function to be financed from the Village's general revenues. For identifying the function to which program revenue pertains, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is the function to which the revenues are restricted.

Notes to the Financial Statements April 30, 2011

- 1. Summary of Significant Accounting Policies (Cont.)
  - C. Measurement Focus and Basis of Accounting (Cont.)

Government-wide Financial Statements (Cont.)

Eliminations have been made in the statement of net assets to remove the "grossing-up" effect on assets and liabilities within the governmental activities column for amounts reported in the individual funds as interfund receivables and payables and advances. Similarly, operating transfers between funds have been eliminated in the statement of activities.

#### Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue resulting from exchange transactions in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Taxpayer-assessed taxes, gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time. The Village considers all revenues available if they are collected within 60 days after year end. Due to the State of Illinois' fiscal difficulties and the resulting delay in distributing receipts to local municipalities, the 60 day availability period for state income taxes was extended in order to record twelve months of tax revenues. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain. All other revenue items are considered measurable and available only when cash is received by the Village. Expenditures are recorded on an accrual basis except for expenditures for insurance and similar services extending over more than one accounting period, which are accounted for as expenditures in the period of acquisition. and inventory items, such as materials and supplies, which are considered expenditures in the period purchased, but any significant amounts of inventory are reported on the balance sheet.

Nonexchange transactions, in which the Village receives value without directly giving equal in return, include income, sales and property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements in which the Village must provide local resources to be used for a specified purpose, and expenditure requirements in which the resources are provided to the Village on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

All proprietary funds are accounted for on a flow of economic resources measurement focus and are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Proprietary funds separate all activity into two categories: operating and non-operating revenues and expenses. Operating revenues and expenses result from providing services and producing and delivering goods. Non-operating revenues and expenses entail all other activity not included in operating revenues and expenses. Non-operating revenues and expenses include capital and noncapital financing activities and investing activities.

Notes to the Financial Statements April 30, 2011

- 1. Summary of Significant Accounting Policies (Cont.)
  - C. Measurement Focus and Basis of Accounting (Cont.)

Fund Financial Statements (Cont.)

Differences occur from the manner in which the governmental activities and the government-wide financial statements are prepared due to the inclusion of capital asset and long-term debt activity. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

## Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Village's major governmental funds:

**General Corporate Fund** – The Corporate Fund is the general operating fund of the Village. It is used to account for the revenues and expenditures used in providing services in the Village except those required to be accounted for in other funds.

**Police Protection Fund** – The Police Protection Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. Effective July 2010, the Police Services Contract with Grayslake is being reported in the General Fund.

#### **Proprietary Fund**

Proprietary funds are used to account for the ongoing operations and activities, which are similar to those often found in the private sector. The measurement focus is upon determination of net income. The Village has chosen the option to apply all applicable GASB pronouncements and all FASB Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins (ARB) issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements to the proprietary fund activities.

The Village's proprietary fund is classified as an enterprise fund, and is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the Village Board has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Notes to the Financial Statements April 30, 2011

### 1. Summary of Significant Accounting Policies (Cont.)

## C. Measurement Focus and Basis of Accounting (Cont.)

Fund Financial Statements (Cont.)

Proprietary Fund (Cont.)

The Village reports the following major proprietary fund:

**Public Works Fund** – The Public Works Fund is used to account for activities which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

### D. Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Taxes for which there is an enforceable legal claim as of April 30, 2011, but which were not considered available, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met and recreation program fees received in advance are also recorded as deferred revenue.

### E. Capital Assets

Capital outlays are recorded as expenditures in the fund financial statements of the governmental funds and as assets in the government-wide financial statements to the extent the Village's capitalization threshold of \$10,000 is met. Depreciation is recorded on general capital assets in the government-wide statements using the straight-line method and the following estimated useful lives:

Buildings and Building Improvements	50 years
Machinery and Equipment	5-25 years
Furniture and Fixtures	7-20 years
Land Improvements	20-30 years
Water and Sewer System	65 years
Infrastructure	15-30 years

To the extent the Village's capitalization policy of \$10,000 is met, capital outlays of the proprietary funds are recorded as capital assets and depreciated in both the fund financial statements and the government-wide financial statements.

All capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Contributed capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Notes to the Financial Statements April 30, 2011

### 1. Summary of Significant Accounting Policies (Cont.)

#### F. Cash and Investments

Investments held by the Village which are short-term highly liquid investments having a remaining maturity of one year or less at the date of purchase are reported by the Village at amortized cost. All other investments are reported at fair value in accordance with GASB 31. Gains or losses on the sale of investments are recognized upon realization. Unrealized gains and losses are recognized for those investments valued at fair value. The investment with the State Treasurer's Illinois Funds is at fair value, which is the same value as the pool shares. The state statute requires the State Treasurer's Illinois Funds to comply with the Illinois Public Funds Investment Act (30 ILCS 235).

The Village will invest in accordance with the guidelines provided in the Illinois Compiled Statutes, Chapter 30, Section 235/2 and Chapter 5, Section 220/15. Appropriate investments include:

- 1. Interest-bearing savings accounts, interest-bearing certificates of deposit or interest-bearing time deposits that are direct obligations of any bank that is insured by the Federal Deposit Insurance Corporation (FDIC).
- 2. Bonds, notes, certificates of indebtedness, treasury bills or other securities guaranteed by the full faith and credit of the United States of America.
- 3. Bonds, notes, debentures, or other similar obligations of the United States of America or its agencies.
- 4. Short-term obligations of United States corporations (commercial paper) with assets over \$500,000,000 if a) such obligations are rated in the three highest classifications established by at least two standard rating services and mature not later than 180 days from the purchase date, b) such purchases do not exceed 10% of the corporation's outstanding obligations, and c) such purchases do not exceed more than one-third of the Village's portfolio.
- 5. Money market mutual funds registered under the Investment Company Act of 1940, provided that the portfolio of any such money market mutual fund is limited to obligations of the U.S. Government or its agencies.
- 6. State of Illinois Funds.

Investments in repurchase agreements and derivative securities are not permitted, per the Village's investment policy.

For purposes of the statement of the cash flows, the Village considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Notes to the Financial Statements April 30, 2011

## 1. Summary of Significant Accounting Policies (Cont.)

## G. Fund Equity

In the government-wide financial statements, net assets are reported as restricted when constraints placed on net assets are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

In the government-wide financial statements, equity is classified as net assets and displayed in three components:

- Invested in Capital Assets consists of capital assets, net of accumulated depreciation and related debt.
- Restricted Net Assets consists of net assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or law through constitutional provisions or enabling legislation.
- Unrestricted Net Assets consists of all other net assets that do not meet the definition of restricted net assets.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a restricted purpose. Designations of fund balance represent tentative plans for future use of financial resources that are subject to change.

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance may further be classified as reserved and unreserved.

## H. Long-Term Liabilities

In the government-wide financial statements and the fund financial statements of the proprietary funds, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements April 30, 2011

#### 1. Summary of Significant Accounting Policies (Cont.)

#### I. Property Taxes

Property taxes for 2010 attach as an enforceable lien on January 1, 2010, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments on or about June 1, 2011 and September 1, 2011. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 1% of the tax levy to reflect actual collection experience. As the 2010 tax levy is used to fund operations of the 2011-2012 fiscal year, the revenue has been deferred at April 30, 2011.

#### J. Accumulated Unpaid Compensated Absences

The Village reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. The entire compensated absences liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

#### K. Use of Estimates

Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities to prepare these financial statements in conformity with GAAP. Actual results could differ from those estimates.

#### L. Budgetary Data

The Board of Trustees follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

- (1) Within or before the first quarter of each fiscal year, the Board of Trustees adopts the annual budget and appropriation ordinance.
- (2) The budget document is available for public inspection for at least ten days prior to the Board of Trustees' public hearing and the passage of the annual budget and appropriation ordinance. The Board of Trustees is also required to hold at least one public hearing on the appropriation ordinance.
- (3) Subsequent to the enactment of the annual budget and appropriation ordinance, the Board of Trustees has the authority to make any necessary adjustments to the budget. There were no budget adjustments made during the year.

For each fund, total fund expenditures may not legally exceed the budgeted amounts. All appropriations lapse at the fiscal year-end.

The budget was prepared on the modified accrual basis of accounting; the same basis used in the preparation of the Village's general purpose financial statements.

Notes to the Financial Statements April 30, 2011

#### 1. Summary of Significant Accounting Policies (Cont.)

#### M. Excess of Expenditures over Budget/Deficit Fund Balance

The following funds had an excess of actual expenditures/expenses over budget for the fiscal year April 30, 2011:

Enterprise Water and Sewer Division
Streets and Sanitation Division

\$ 2,781 54,575

There were no funds that had a deficit in the fund balance at April 30, 2011.

#### 2. Cash and Investments

#### A. Cash

The carrying amount of cash was \$1,013,596 at April 30, 2011, while the bank balances were \$1,060,053. Bank balances were either insured by the Federal Deposit Insurance Corporation (FDIC) for \$250,000, or collateralized with securities of the U.S. Government or with letters of credit issued by the Federal Home Loan Bank held in the Village's name by financial institutions acting as the Village's agent.

#### B. Investments

The Illinois Funds Money Market Fund is an external investment pool developed and implemented in 1975 by the Illinois General Assembly under the jurisdiction of the Illinois State Treasurer, who has regulatory oversight for the pool. The Fund is not registered with the SEC and has an affirmed AAAm Standard & Poor's credit quality rating. The fair value of the positions in the pool is the same as the value of the pool shares. At year end, the Village had \$2,269,264 in Illinois Funds earning a 0.045% return. Illinois Funds is not subject to custodial credit risk. The Fund issues a publicly available financial report. That report may be obtained by writing to the Office of the State Treasurer, Illinois Funds Administrative Office, 300 W. Jefferson Street, Springfield, Illinois 62702.

Notes to the Financial Statements April 30, 2011

#### 3. Capital Assets

A summary of changes in the Village's capital assets for the period May 1, 2010 through April 30, 2011 follows. Total depreciation expense for the year was \$176,163 for governmental activities and \$151,647 for business-type activities.

	I	Beginning			Ending
		Balance	Additions	Reductions	Balance

## 4. Long-Term Debt

Notes Payable - Bank

\$600,000 Installment note payable to First Midwest Bank for the purchase of a building, dated January 12, 2011, due in monthly installments of \$6,449 including interest at 5.25%, matures January 1, 2016 with a one-time balloon payment of \$343,850, secured by real estate.

#### Capital Lease

A tractor was purchased with a four year lease in August 2010. The terms of the lease require four annual payments of \$10,156.33. At the end of the lease there is a purchase option of \$1. The terms of the lease require the transaction to be recorded as a capital lease, thus recognizing the assets as owned and a liability set up for the future payments due.

Long-term debt activity for the year ended April 30, 2011 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Notes Payable - Bank	\$	600,000	16,472	583,528	47,386
Compensated Absences	\$ 12,981		12,530	451	451
Capital Lease	\$	36,224	8,436	27,788	8,836

Notes to the Financial Statements April 30, 2011

#### 4. Long-Term Debt (Cont.)

Debt Service Requirements to Maturity

Year Ending	Note Payable

2012	\$ 8,836	1,320
2013	9,256	900
2014	9,696	461
	\$ 27,788	2,681

#### 5. Risk Management

The Village is currently participating in the Risk Management Association (IMLRMA), a public entity risk pool managed by the Illinois Municipal League. The Village pays an annual premium to IMLRMA for workers compensation insurance, and for all common liability and property coverage. Premiums have been displayed as expenditures in appropriate funds.

Financial information of IMLRMA may be obtained from its administration office:

I.M.L./Risk Management 500 East Capital Avenue P.O. Box 5180 Springfield, IL 62705

#### 6. Motor Fuel Tax Allotment

Under current procedures, the allotments of the Village are being received from the State of Illinois each month. These allotments, however, may be expended only for specific projects that have been approved by the Department of Transportation, State of Illinois. Accordingly, the fund balance of the motor fuel tax fund is reported as Reserved for Maintenance of Roadways.

Notes to the Financial Statements April 30, 2011

#### 7. Economic Development Agreement

In 2003, the Village entered into an agreement with a developer that calls for the Village to remit back to a retail establishment 50% of the sales tax receipts collected by the establishment. The purpose of this agreement is to reimburse the establishment for municipal improvements made by the developer to the property. The agreement will terminate upon payment of the sum of \$300,000 or 10 years, whichever event shall occur first. Semi-annual payments commenced on the date the establishment opened for business. Payments to date total \$172,311, including \$35,463 in the current year.

#### 8. Intergovernmental Agreements

The Village has entered into an agreement with School District 46. It has agreed to abate and waive fees and charges associated with providing water service to the elementary school for \$170,000. As of the fiscal year end, the School District had a remaining credit balance of \$51,589.

#### 9. Defined Benefit Pension Plan

Illinois Municipal Retirement

#### Plan Description

The Village's defined benefit pension plan for Regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at <a href="https://www.imrf.org">www.imrf.org</a>, or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

#### Funding Policy

As set by statute, the Village's plan members are required to contribute 4.50% of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar year 2010 was 9.23% of annual covered payroll. The Village also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Notes to the Financial Statements April 30, 2011

#### 9. Defined Benefit Pension Plan (Cont.)

Illinois Municipal Retirement (Cont.)

Annual Pension Cost

For 2010, the Village's annual pension cost of \$36,548 for the Regular plan was equal to the Village's required and actual contributions.

#### TREND INFORMATION

Fiscal	Annual	Percentage	Net
Year	Pension	of APC	Pension
Ending	Cost (APC)	Contributed	Obligation
12/31/2010	\$ 36,548	100%	0
12/31/2009	43,496	100%	0
12/31/2008	15,050	100%	0

The required contribution for 2010 was determined as part of the December 31, 2008 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2008 included (a) 7.50% investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.00% a year attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at the December 31, 2008 valuation was 29 years.

#### Funded Status and Funding Progress

As of December 31, 2010, the most recent actuarial valuation date, the plan was 74.22% funded. The actuarial accrued liability for benefits was \$192,954 and the actuarial value of assets was \$143,214, resulting in an underfunded actuarial accrued liability (UAAL) of \$49,740. The covered payroll (annual payroll of active employees covered by the plan) was \$395,966 and the ratio of UAAL to the covered payroll was 13%. In conjunction with the December 2010 actuarial valuation, the market value of the investments was determined using techniques that spread the effect of short-term volatility in the market value of investments over a five year period with a 20% corridor between the actuarial and market value of assets. In 2010, the unfunded actuarial accrued liability is being amortized on a level percentage of projected payroll on an open 30 year basis.

The schedule of funding progress, presented as Required Supplementary Information following the Notes to the Financial Statements on page 39, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

Notes to the Financial Statements April 30, 2011

#### 10. Interfund Transactions

Due from/to other funds as of April 30, 2011 were as follows:

Receivable Fund	Payable Fund	Amount		
Police Protection Fund	General Fund	\$ 122,846		

The remaining balance in the Police Protection Fund will be transferred to the General Fund in fiscal year 2012 to fund the contract with the Village of Grayslake for police services.

Interfund transfers during the year ended April 30, 2011 consisted of the following:

Receiving Fund	Transferring Fund	Amount	
Public Works Fund	General Fund	\$ 141,200	

This transfer was made in connection with the public works building acquisition.

#### 11. Commitments and Contingencies

Village of Hainesville entered into a contract with the Village of Grayslake police in July 2010. Grayslake shall provide all police, law enforcement and public safety related services to Hainesville. Hainesville agrees to pay Grayslake an annual fee for police services through July 2017. Future annual minimum payments are as follows as of April 30, 2011:

<u>Year</u>	Amount
2012	\$ 626,248
2013	661,549
2014	698,729
2015	737,691
2016	770,417
2017	129,276
	\$ 3,623,910

Current year expense was \$515,295 for the year ended April 30, 2011.

#### 12. Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following statements:

Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, will be effective for the Village beginning with its year ending April 30, 2011. This Statement was issued to enhance the usefulness of fund balance information by providing clearer fund balance classifications and by clarifying the existing fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds.

Management has not currently determined what impact, if any, this Statement may have on its financial statements.
