Refuse & Recycling Reminders

When should refuse be put at the curb?

Trash, recyclables and yard waste should be at the curb by 6 am on Wednesday. Items can be set out after 3 pm on the day prior. All containers need to be removed no later than 8 pm on collection day.

What if my trash does not fit in the cart?

If you have more refuse than will fit in your cart, please place it in either plastic bags of 32 gallons or smaller containers that weigh less than 50 pounds and can be managed by one person.

What if Advanced Disposal misses my garbage pick up?

If your trash is missed by Advanced Disposal on Wednesday, it must be called in by Thursday morning in order for Advanced Disposal to go back and pick it up within the week. **Contact Advanced Disposal at 847-623-3870 for a missed pickup.**

What can I do with large items that do not fit in the refuse cart?

Each resident is allowed one bulk item per week at no charge. Bulk items include any regular household furniture, i.e., couch, chair, mattress. Rolls of carpet are bulk items as well. Carpet needs to be rolled less than 6 feet in length, manageable by one person and weigh 50 pounds or less. **Contact Advanced Disposal customer service at 847-623-3870 to schedule a pickup.**

How do I dispose of large appliances?

Advanced Disposal does pick up appliances. **For this service you do need to contact Advanced Disposal at 847-623-3870 for a special pick up.**

How do I get rid of construction waste?

Small amounts of construction materials which can fit into a single 33 gallon container and weighs less than 50 pounds may be set out for normal weekly collection. There is a charge for any type of building material, such as wood, drywall, and fencing, etc. **Contact Advanced Disposal at 847-623-3870**

What do I do if I have a broken trash can or recycle bin?

Contact Advanced Disposal at 847-623-3870.

Holiday Collection Schedule

In weeks when regularly scheduled waste collection is on or after a holiday, waste collection will be delayed one day. For example, if a holiday falls on a Monday, services will be delayed one day, to Thursday.

Holidays which may affect the schedule are: New years Day, Memorial Day, 4th of July, Labor Day, and Christmas Day.

Please check the Village website at www.hainesville.org for Schedule.

YARDWASTE PREPARATION REMINDERS

What is yard waste?

Grass clippings, leaves and small twigs are all considered yard waste. The following items **are not** considered yard waste: dirt, rocks, mulch, sod, sand and bricks.

How do I get rid of yard waste?

Yard waste may be disposed of in brown biodegradable bags or 32-gallon or smaller cans marked as **YARD WASTE**.

In what month is yard waste collected?

Properly prepared yard waste, branches and brush will be collected from the curb on your regularly scheduled collection day from April 1st thru November 30th.

How should brush and branches be prepared?

All branches and brush must be tied in bundles with string or twine no larger than 4 feet long and 18 inches around and must weigh less than 50 pounds. An unlimited number of bundles may be set out at the curb for pickup on your assigned waste collection day.

CURBSIDE RECYCLING FACTS

Please save this list of acceptable recyclables in the Village of Hainesville's curbside recycling program. Your participation and cooperation are greatly appreciated. Pitch in and recycle the following items:

MIXED PAPER

Paper/Fiber Products

Newspapers: ad inserts accepted

Computer paper: white and colored paper

Junk mail and envelopes

Magazines & Catalogs

Telephone books: no regular reading books

Paper grocery bags

Chipboard/Paperboard: flatten and remove windows, liners and handles

Corrugated cardboard: must be in squares of 2' x 2', bundled with string and place in the recycling cart.

PLASTIC, CANS & GLASS

Co-mingled Rigid Products

Rinse all of these items before placing in recycling bin.

Glass: clear, green and brown bottles and jars

Cans: metal, tin and bi-metal food cans

Aluminum: cans, *clean* foil and trays

Plastics #'s 1-5 and 7: discard caps and metal rings

****TOWNHOME RESIDENTS ONLY****

How To Prepare Your Recycling Bin

Separate paper/fiber products from the glass, cans and plastics (co-mingled) products. Below are several preparation options to keep materials separated and prevent paper products from blowing out of the bin.

General Directions: Flatten cardboard, cut to 2' x 2' and place under recycling bin
Place bin out for recycling collection by 6 am on scheduled day to avoid missed service.
Secure bin and contents from wind; use a second bin if needed

Option 1. Place all paper products into paper grocery bags. Put all rigid co-mingled products directly into the recycling bin.

Option2. Place all paper products loose in bottom of recycling bin, then fill paper grocery bags with rigid containers. Place bag(s) on top of paper products at curbside to prevent them from blowing out.

Option3. If you have many recyclables, please use two bins, one for paper products and one for plastics, glass and metal containers.

If you have any questions, please contact your Homeowners Association.
